PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science undergraduate with practical exposure to AI-driven academic and fitness applications. Experienced in applying computer vision, basic machine learning concepts, and web technologies to solve real-world problems. Interested in developing structured, user-focused AI systems with strong academic foundations.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Oct 2022 – May 2026

MES College of Engineering, Malappuram, Kerala

EXPERIENCE

Research and Development

Dec 2025 – Jun 2026

Guido Freelance Project Centre, Kerala

- Identified, documented, and resolved software bugs, improving system stability and user experience.
- Researched and proposed development tools, frameworks, and automation solutions to streamline workflows.
- Designed and developed backend services using modern programming practices and database management techniques.
- Built and integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Performed system testing, debugging, and performance optimization to ensure reliable application functionality.
- Collaborated with cross-functional teams to deliver scalable, efficient, and maintainable software solutions.

PROJECTS

Mentora-AI – AI Mentor and Tutor System

Nov 2025 – May 2026

- Designed and developed an AI-powered academic mentor platform to support students, teachers, and parents in the learning process.
- Automated attendance tracking, performance monitoring, and communication workflows to improve educational management and engagement.
- Integrated NLP-based features to deliver personalized learning guidance, progress insights, and academic recommendations.
- Built a structured AI-driven system focused on enhancing learning outcomes, accessibility, and overall educational effectiveness.

AI Pose Estimation and Curl Tracker

Jan 2025 - Mar 2025

- Developed an AI-based fitness monitoring application focused on real-time posture and exercise tracking.
- Applied pose estimation and computer vision techniques to analyze body movements and count exercise repetitions accurately.
- Enhanced workout effectiveness by providing visual feedback and movement analysis to support proper exercise form.

Explainable Clickbait Detection System

Jan 2026 – May 2026

- Developed an AI-powered clickbait detection system using DistilBERT to classify online headlines with high accuracy.
- Implemented a FastAPI backend and Chrome extension to analyze web content in real time and provide instant predictions.
- Integrated LIME-based Explainable AI (XAI) to highlight influential words and improve prediction transparency.
- Built interactive visualizations and browser-based monitoring features to enhance user awareness and digital wellbeing.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL, HTML, CSS
- **Web Development:** Frontend Development, Backend Development, REST APIs, FastAPI, Responsive Web Design
- **Artificial Intelligence & ML:** Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Explainable AI (XAI)
- **Tools & Technologies:** Git, GitHub, Chrome Extensions, Chart.js, VS Code, Linux
- **Database Management:** MySQL, Database Design, Data Processing, Data Analysis
- **Software Development:** Object-Oriented Programming (OOP), API Integration, System Design, Testing & Debugging
- **Professional Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Time Management, Adaptability
- **Communication:** Technical Documentation, Presentation Skills, Public Speaking, Active Listening

CORE SKILLS

- | | | |
|-------------------------------|------------------------|-------------------------------|
| – Python Programming | – FastAPI Development | – Data Structures |
| – Java Programming | – REST API Integration | – Object-Oriented Programming |
| – Machine Learning | – Web Development | – Team Collaboration |
| – Deep Learning | – Database Management | – Leadership |
| – Computer Vision | – Git & GitHub | – Time Management |
| – Natural Language Processing | – Problem Solving | – Technical Documentation |

COURSES & CERTIFICATIONS

- Accessing Hadoop Data Using Hive – IBM Cognitive Class
- R Programming for Beginners – Simplilearn SkillUp, 2024
- Cyber Security and Ethical Hacking Internship
- AI/ML Internship – OutriX

ADDITIONAL INFORMATION

- **Languages:** English (Advanced), Malayalam (Advanced), Hindi (Beginner)
- **Availability:** Open to opportunities
- **Relocation:** Yes
